

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE ER REGULATORY CONTACT RECORD

Date/Time: 8/24/04 8:09 AM
Site Contact(s): Edward A. Brovsky
Phone: 2883
Regulatory Contact: Mary Goldade
Phone: 303.312.7024
Agency: EPA

Purpose of Contact: Request for Data

Discussion

Mary Goldade, EPA, submitted an additional request for information regarding alpha spectrometry data from Location GS01 per the attached email.

From: Goldade.Mary@epamail.epa.gov [SMTP:Goldade.Mary@epamail.epa.gov]

Subject: Rocky Flats -- Got some questions for you

Ed:

We're slowly going through the data packages you sent a couple months ago, and have come up with a few general questions for you.

1) First, the case narrative in the data package RIN04D0380 (Laboratory Identification Number 5178) references: "Kaiser-Hill specification stated in the 'BOA Implementation Requirements, GR03-A.4, dated September 5, 2001'". However, version I received from you is entitled: "BOA Implementation Requirements GR03-A.5, dated October 21, 2003". Please e-mail to all on this distribution the earlier version of the BOA Implementation Requirements document so that we can review RIN04D0380 using the correct specifications.

2) We're also looking to obtain plutonium and americium data gathered for location GS01 over time. Do you have access to the electronic database that houses this data?

If so, we are looking for: all Pu & Am results at location GS01. That includes all original results and any duplicates (field and/or laboratory duplicates) performed at this location. In addition to these data points, please provide: the date of sampling, method reference (SOW/Contract info), units of measure for each data point. Regarding the "method reference", we'll want to understand if there are any differences due to method changes. Please provide us with all versions of the methods that are referenced.

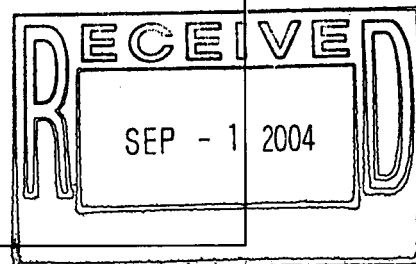

If it is little more time and trouble, we'd also like to obtain all U data, but that is secondary for the moment.

If you do not have access to the database, please let us (on the distribution list) know who we should contact for this request.

Tony Ranalli, USGS chemist on IAG with EPA is looking at a data package this coming week. I suggested that he call you if he has any specific questions about the data packages he'll be looking at. Could you please forward your phone number to him...just in case? Tony's phone number is: 303.312.6671.

Thank you!

Mary
